

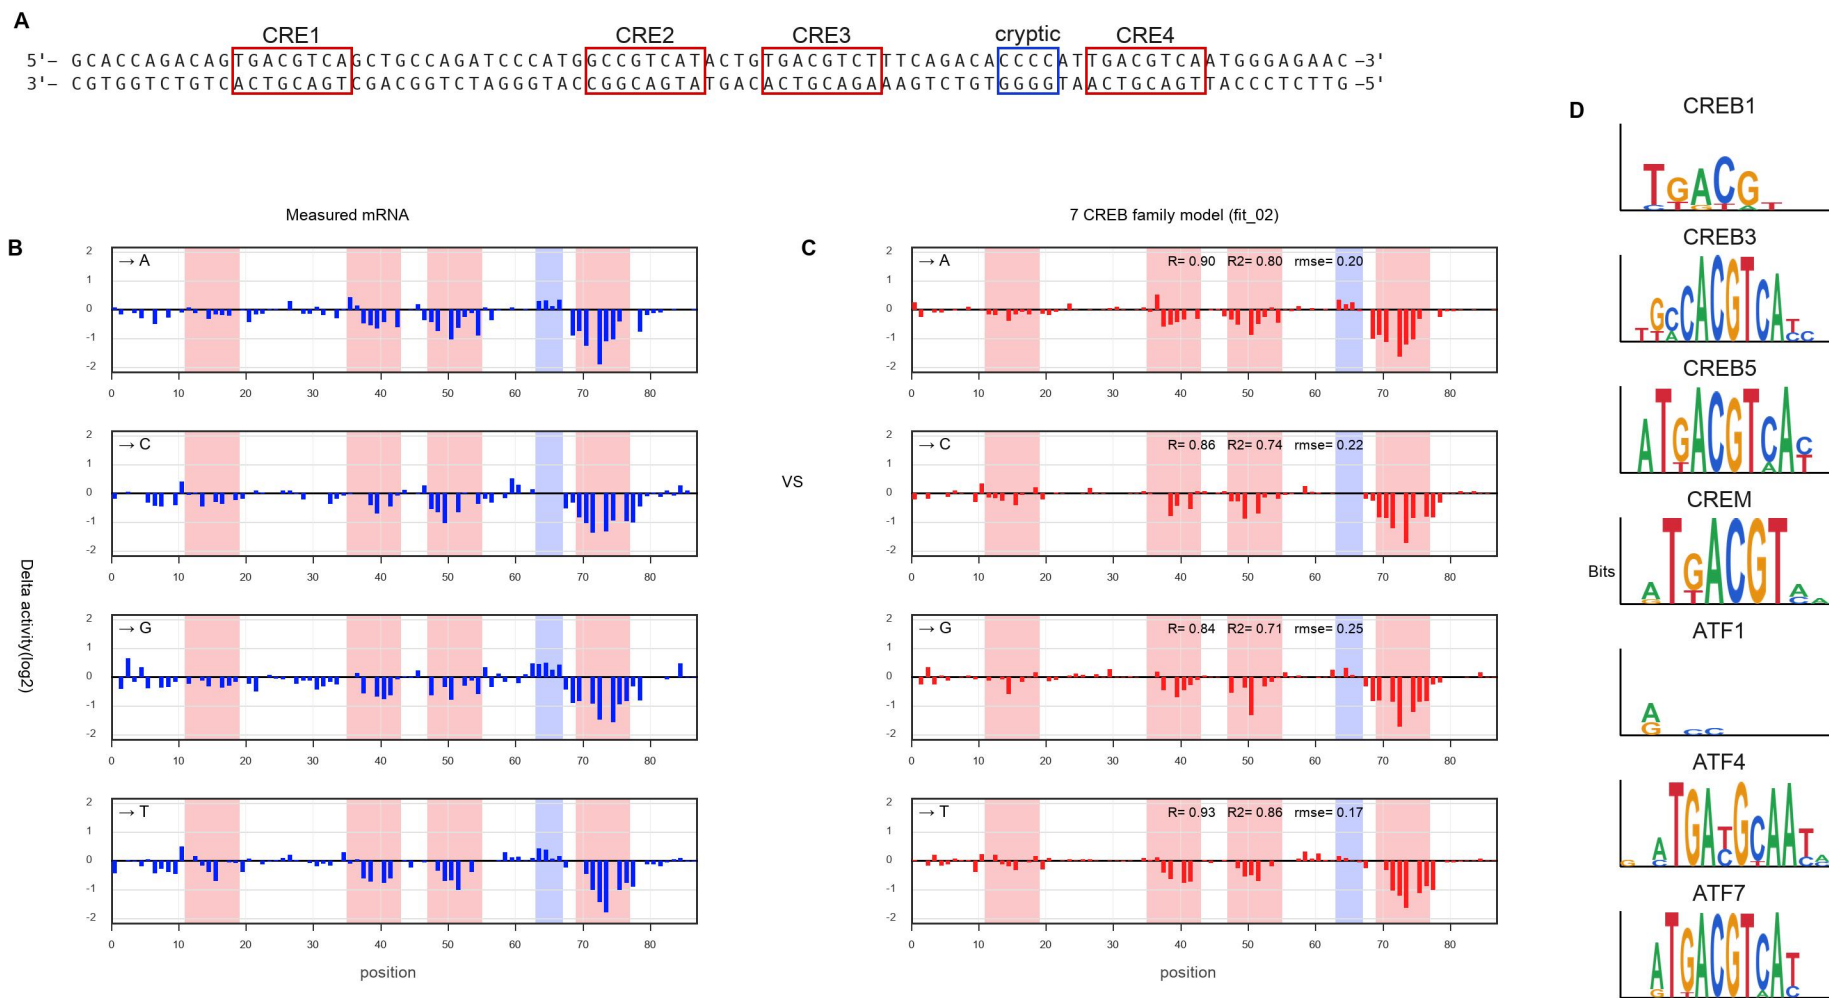

Figure 2. A CRE enhancer and its mutational activities

(A) Synthetic CRE enhancer sequence used for Kang 2024 Table S3. Red boxes indicate CRE sites and the blue box represents the cryptic region.

(B) MPRA single-hit experimental Delta activity. (C) fit_02 prediction from the modified Kim 2013/transscpp 7 ATF/CREB family model.

(D) Motif-logo style summaries of Table S2 PWMs used in the 7TF model.
